## Zebra Mussels Reported

The Minnesota Department of Natural Resources (DNR) has confirmed reports that zebra mussels have been found in Kimble Lake.

A lake service provider noticed the invasive species on a boat lift in storage at the end of summer and alerted the DNR. DNR staff found another zebra mussel on a boat lift out of water. **Jim Schultz** reported that more have been found since the initial discovery.

While this presents a challenge, Kimble Lake residents, lake service providers and the DNR are proactively addressing the issue. A special thanks to those who scouted for more zebra mussels last weekend. Together we can stay on top of this problem to keep Kimble Lake clean and safe!

## New Owners for Norway Ridge

A large group of residents bid a fond farewell to Jackie and Alicia, owners of Norway Ridge for 35 years. Best wishes on the next chapter of your life. You'll be missed!

In spring, we'll welcome the new owners. We look forward to introducing them after they've settled in.

## Moon Over Kimble

Thanks to Gary Schwartz for this gorgeous picture he took recently.

## Thanks Again, Jane!

Thank you once again to **Jane Maas** for coordinating the ladies lunch group this summer. The events were well attended and a lot of fun!

### OUR MISSION:

The Kimble Lake Homeowners Association is organized to encourage wise use and preservation of Kimble Lake to maintain the ecological balance that must exist between the lake and adjacent shore land. The association will work to keep this lake and its surrounding watershed in good condition. Further, the association will consider, recommend and endeavor, through responsible means, to bring about appropriate action by agencies of government and private individuals to realize effective management and preservation of the valuable resources of Kimble Lake and its adjacent shore land.
